ABOUT IPC

Founded in 2011, IPC Services LLC is a locally owned, family-run business that focuses on safety in work zones and on roadways through flagging operations, advanced operations & set-ups, and emergency & storm response.

TRAFFIC CONTROL & FLAGGING OPERATIONS

IPC's team of trained and certified traffic control professionals apply their experience and our best practices to adapt to every job site and to anticipate traffic movements. Our teams work with construction and utility contractors throughout Western Pennsylvania, Ohio, and West Virginia. This includes:

- | | |
|-----------------------|--------------------|
| Gas | Electric |
| Telephone | Water |
| Tree Trimming | Landscaping |
| Underground Utilities | Sewer |
| Fiber Optics | Telecommunications |

ADVANCED OPERATIONS

IPC is equipped to handle our customers needs when it comes to advanced flagging operations and traffic control. These complex traffic situations require multiple flaggers and adequate signage to manage multiple lane closures, busy intersections, and other high volume traffic situations to minimize traffic disruptions and keep work crews safe.

EMERGENCY/STORM RELATED TRAFFIC CONTROL

As a 24/7/365 emergency response contractor IPC is prepared to offer traffic control services in case of any emergency. Whether it is for downed powerlines or trees, roadway flooding due to storms, or to assist first responders during roadside accidents or fires IPC is ready to mobilize and deliver high-quality traffic control in challenging situations.
